

HEART-KIDNEY MASTERCLASS

Dear Colleague,

We would like to cordially invite you to the **Heart-Kidney Masterclass Virtual Meeting 2021** which will be held as a live webinar on Saturday, April 17th 2021.

The first Heart-Kidney Masterclass will bring together an expert faculty of international and national speakers and chairs to explore common issues that exist for patients living with heart failure and chronic kidney disease.

The Masterclass is divided into two sessions which will focus on RAASi optimisation and iron deficiency/anaemia management highlighting areas of controversies and recent clinical updates. These interactive sessions will include a mix of plenaries, case studies and Q&A sessions that will allow for practical learning.

The meeting is aimed at healthcare professionals involved in the management of patients with CHF and CKD particularly nephrologists, cardiologists, care of the elderly physicians, general practitioners, nurses, and pharmacists.

We really hope that you will be able to join us for the **Heart-Kidney Masterclass Virtual Meeting 2021**.

Yours sincerely,

Prof. Austin Stack
Consultant Nephrologist
Chairperson

Prof. Ken McDonald
Consultant Cardiologist
Chairperson
